

# The goals of Bionade

work with  
biologically  
obtained raw  
materials

less  
sugar

product  
range  
extension in  
the field of  
bionade

work  
regionally

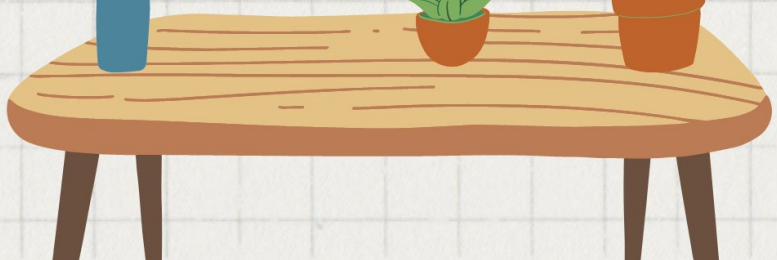

make 17 million  
square meters of  
green space in  
Germany more  
insect-friendly

to be 100%  
from  
controlled  
organic  
cultivation

to be 100% from  
controlled  
organic  
cultivation

work  
sustainably

to be a fair  
alternative to  
conventional  
lemonade

# how does Bionade work sustainably

BIONADE is the most honest soda in the world. They do what no one else dares  
(for the first time). And always have been.

**every bottle gets used 50  
times**

**the brewing process is  
local (in Ostheim)**

**everything that grows  
locally gets used**

**Bionade treats bees and  
other insects kindly**

**washing machines work  
with hydroelectricity**
